

WORKING  
FOR  
YOU

### KI WorkZone® Laptop Garage®

When ready access to laptop technology in the classroom is needed, the Laptop Garage provides adequate space and cord management. Simply pull down the garage for a flat writing surface. Available for 15" and 17" laptops, the Laptop Garage is constructed from 16-gauge steel with a black powder-coated finish. The unit is accessed by a simple touch of a steel latch located on the front panel. Two gas cylinders raise the cover approximately 20°. Manually lift past 14° past vertical to automatically engage the steel lock bracket. Close by simply pulling the door forward to disengage the spring, then pulling it down to a closed position. The unit features a keyless solenoid locking system that can be programmed to lock and unlock all units within a room at the same time, or individually. Keyless remotes are included. The desk's work surface is constructed of 1 1/4" high-density particleboard finished with high-pressure laminate. Its 29" high frame is 16-gauge steel joined with a 19-gauge steel partial modesty panel and wire management trough. Legs are equipped with adjustable chrome-plated glides for uneven floors. Specify desk top and frame color when ordering. Assembly required. Larger orders ship freight class 70. Additional sizes and non-locking units also available, call for pricing. **Ships UPS**

### Bretford SmartDeck Accessories

The 4-Outlet Electrical Unit features an on/off switch, surge and overload protection, and a 20' power cord. Table Jumper Kit features cord bin bridge units to close the gap between tables when in a row and provide a channel to run cords from one table to the next.

4 Outlet Electric Unit	<b>WLF005-1010</b>	<b>\$99.00</b>
Table Jumper Kit	<b>WLF005-1011</b>	<b>\$40.00</b>

**Hardwired Power Components allow tables to tie into the building electrical infrastructure to make it easier to power rows, requires installation by a certified electrician. Contact your sales representative for information.**

## Flexline Leonardo Computer Tables

Flexline Leonardo's angled top in left and right hand models allows great classroom layouts with good sightlines. Use Leonardo to form rows or back-to-back layouts: the unique top shape allows students to focus on both the computer and the instructor. High pressure laminate tops are 1 1/4" thick with 3/8" thick bumper edge molding. Angled top is 30"D and 24"W with a work area of 24" x 24". Standard with modesty panel, tilt down wireway, and cord cutout at rear of work surface. Legs adjust from 24" to 32" high in 1" increments. Optional casters are available. FOB Manufacturer. Freight class 70.

# Recessed Monitor Desks & Multi-User Centers

## Select 24 Series

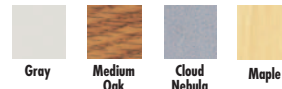

Slim-line tables provide many configurable options that create a "full size" workspace. Popular floor plans include back-to-back tables, L-shaped or rows. Designed primarily for flat-panel monitors, select desktops are standard 24" deep and available in 30", 48", 60", and 72" lengths. Top is 1 1/4" thick covered High Pressure Laminate with heavy-duty molding. One and two-person tabletops include covered grommets as well as front-side channels with modesty panels for hidden wire management. Single-post adjustable legs have steel top support; 1" adjustable glides at the bottom and are available in adult (26"-32") or elementary (21"-25") height. Ships unassembled. Specify color when ordering. Freight class 85. 

Two WLF024-SCD60 shown back-to-back with one WLF024-SPD48 printer desk. Shown with optional keyboard trays and CPU platforms. Cloud Nebula finish shown.

## Bretford Intelligent Laptop Storage Carts

These carts' Power Management System charges all computers with one outlet and constantly monitors charge levels to send power where it is needed most. Choose from units that hold and charge 20 or 30 computers. A rear access power closet keeps cables neat and out of sight and provides easy access to outlets. Doors and side panels are perforated to vent equipment while charging and power cycles, preventing computers from overheating. Welded frame steel construction with bolting doors and user programmable combination lock provides years of use and deters theft. The 20 computer cart holds computers horizontally and the 30 computer cart stores computers vertically on their side. Includes 5" industrial casters. Certified to UL standards. Grey Mist color. Overall dimensions: 43 3/8"W x 27 3/8"D x 45 1/8"H. Ships fully assembled. Freight class 125. **Ships UPS**

Description	Weight	Cat. No.	Price
20 Laptops, Horizontally	270 lbs	<b>WLF005-1014</b>	<b>\$2,435.00</b>
20 Laptops, Vertically	240 lbs	<b>WLF005-1015</b>	<b>\$2,719.00</b>

## Bretford Laptop Storage Cart

House 16 computers with these units, which can recharge laptops with an optional UL listed, 15-outlet electrical panel. The electrical unit includes an on/off switch, surge protection, and a 20' power cord that is accessed from a rear door. Doors secure with a user programmable combination lock. Sturdy welded steel construction cart comes with 5" casters, two locking. Grey Mist color. Overall dimensions: 35 1/2"W x 21 1/2"D x 38 1/8"H. Ships fully assembled. Freight class 125. **Ships UPS**

Description	Weight	Cat. No.	Price
Cart without Electrical Panel	154 lbs	<b>WLF005-2005</b>	<b>\$1,339.00</b>
Cart with Electrical Panel	139 lbs	<b>WLF005-2004</b>	<b>\$1,539.00</b>

## Bretford Netbook32 Cart

Specially designed for small netbook computers with up to a 10" screen, this unit can hold an entire classroom collection of 32 computers. Rear access electrical and built-in timer unit switches between power strips, so everything can be easily charged off the same outlet. Doors secure with a user programmable combination lock to deter theft. Sturdy welded steel construction cart comes with 5" casters, two locking. Not for use with standard size laptops. Color is black. Overall dimensions: 35 1/2"W x 21 1/2"D x 38 1/8"H. Weight: 135 lbs. Ships fully assembled. Freight class 125. **Ships UPS**
